About Us

Company Description

Trans Orbit Global Logistics is a full-service company using 3PL providing, supply chain management solutions including international and domestic transportation along with warehousing, and customs brokerage trade consulting services.

The company operates in 2 locations in Sri Lanka with its own offices offering comprehensive transportation and international services that span the globe. All

TOGL solutions are supported by technology that is fully web-enabled and provides real-time visibility of products throughout the supply chain.

TOGL was founded in 2011 and is now a leading Global Logistics company providing Comprehensive supply chain management solutions that span across the globe. Our solutions are flexible, and scalable and offer visibility throughout the supply chain.

Our mission is to provide flexible logistics solutions that support the changing demands within our clients' supply chains. We operate with honesty and integrity.

We provide complete supply chain solutions including Customs Brokerage and Freight Forwarding, Fulfillment and E-Commerce Fulfillment, Small Parcel Delivery, Transportation and Transportation Management, Value Added Services, and value-added warehousing.

What We Offer at TOGL

A true creator of value for the companies it supports, TOGL has gradually expanded its field of intervention thanks to the personalization of its offer, which is aimed at both international mid-caps and key accounts.

TOGL operates in many sectors of activity: consumer goods, fashion and luxury, capital goods, pharmacy and cosmetics, mass distribution, wines and spirits, automotive, electronics, art, perishable...

We understand the complexities of customs and the myriad of regulations and documentation needed for a smooth process. By adding each staffs experience in the industry, it exceeds over 100 years of expertise know-how with customs brokerage for import & export.

Why Partner With Us

Trade Logistics + Export Factory

We provide services to curb total costs & shorten response time through the whole process of packaging, customs clearance, overseas transport, and account settlement entrusted by clients distributing merchandise across the globe.

Sales Logistics

We provide services for manufacturers and distributors to support the growth of sales by applying Third Party Logistics (3PL) affiliated with a variety of transport modes including the parcel delivery network.

Service Parts Logistics

We provide services to help the clients manufacturing consumable goods enhance competitiveness by contracting the supply of service parts, the repair of original equipment, and the provision of a wide range of after-sales services including recall campaigns.

www.trans-orbit.lk

Medical Logistics

Services to help medical equipment and drug manufacturers and medical institutions distribute products and services safely to ensure the best possible solutions without errors in shipment or damage to products.

Fine Arts Transport

We are specialized in Packaging & transport of art objects for exhibitors and event promoters. These services support the safe, secure display of priceless works of art.

Overseas Relocation Support services

We support for moving, visa application, real estate referrals, and language training for employees assigned overseas by client companies operating internationally. Services for overseas-assigned employees to ensure full access to all qualified benefit programs and the personnel divisions of the client businesses in improving Administrative efficiency.

Our Services

Air Freight Logistics

TOGL is dedicated to your cost sensitive needs. We will consolidate your shipments To and from INDIA even when we pick up at separate times of the day. If you have a critical shipment that did not make the first pick up, just give us a call. If we haven't tendered your cargo to the airline yet.

Sea Freight Logistics

Provision of fully customized logistics for industrial product manufacturers, which include materials procurement for manufacturing plants, operation of parts centers, parts supply to production lines, and the delivery of finished products. Services to help maximize production efficiency.

Hazardous Cargo

If you supply or purchase 'Dangerous Goods', then TOGL can help you overcome the complexities that often accompany the movement of these restricted materials, particularly by air. TOGL has Hazardous Certified personnel who can conduct the logistics process to the end user.

Service Parts Logistics

Services to help the clients manufacturing consumable goods enhance competitiveness by contracting the supply of service parts, the repair of original equipment, and the provision of a wide range of after-sales services including recall campaigns.

Document Logistics

Provision of fully customized logistics for industrial product manufacturers, which include materials procurement for manufacturing plants, operation of parts centers, parts supply to production lines, and the delivery of finished products.

Cross Trade Solutions

If you have a consignment that is required by your client in another part of the world, TOGL can collect from your supplier and ship directly to your end-user, coordinating your movements through the TOGL extensive network.
